OTTAWA, April 17.—Hon. Mr. Abbott,  
has introduced in the Senate a bill which  
provides that railways in the Northwest  
shall have the right to enter upon uncul-  
tivated lands within 220 feet each side  
track and plough fire guards and burn

company's interest, it is said one of the  
managers told a shareholder that he did  
not care if whiskey instead of water  
flowed down the Saskatchewan.

Postponed.

In the Senate on Wednesday, the N.  
W.T. bill was postponed. This is due  
to an interview Perley and Loughheed  
had with Mr. Dewdney regarding certain  
amendments. The first is with reference

to members of the Assembly being per-  
mitted having control of the public land,  
and another that the Advisory Board  
shall hold office at pleasure of the Coun-  
cil and there were several other minor  
alterations. One by Senator Perley was  
that section 14 relating to schools be re-  
pealed and the following substituted:  
"That the Legislative Assembly shall  
have power to make all necessary ordi-  
nances in respect to education, but not  
till after the next general election for  
Assembly.

which showed the affairs of the club to  
be in a flourishing condition.

The election of officers for the current

following gentlemen were unanimously  
chosen:—President, J. F. Betts, M.L.A.;

## GENERAL NEWS.

W. H. Puffer and two other farmers  
from Michigan, are prospecting for land  
in the Northwest east of Regina. A large  
number of people in the part of Michigan  
where they come from are waiting for  
Mr. Puffer's report, upon which they will  
come to this country if favorable.

A C.P.R. news agent named Mac-  
Pherson received \$150 from Glasgow a  
few days ago. He subsequently disap-  
peared and has not been seen since and  
there is a suspicion that he has been  
spirited away by some person who wish-  
ed to secure his money. MacPherson  
was to have left for England on the 7th.  
Two other young men have disappeared  
of late under exactly similar circumstan-  
ces.

OUR BUTTER INDUSTRY.

Now that the season is opening when  
butter making in our district should as-  
sume something like its natural propor-  
tions, it will be wise for those engaged  
in its manufacture to look carefully to  
their interests. They must remember  
that with the advent of a railway their  
operations should be on a larger scale  
than heretofore, and should be even  
more carefully looked after than in the  
past. Prince Albert enjoys, to-day, the  
reputation of having a much larger pro-  
portion of good butter makers than al-  
most any settlement west of Lake Supe-  
rior, and the annual display at our agri-  
cultural show goes to prove the state-  
ment. It is most important that we  
retain this record, and it can only be  
done by our constant aiming at improve-  
ment. No improvement in butter mak-  
ing can be hoped for unless the greatest  
possible care is given to all the details of  
its manufacture. Many settlements in  
other parts of Canada, having a reputa-  
tion for sending out a good article, find  
the exporting of butter a profitable busi-  
ness, profitable alike to those who manu-  
facture and those who handle it. The  
first care of those in charge of the dairy  
should be to have it distinctly under-  
stood that only fiber, oak or ash tubs  
will be allowed in connection with the  
packing, and farmers should consider  
the importance of withdrawing their  
attention from the fields long enough to  
provide their hard working wives with  
an abundance of pure water, cool and  
commodious milk houses and store room,  
for until these necessary improvements  
are made it is foolish for men or women,  
interested to expect profit or comfort from  
the dairy output. While poor butter is  
useless the demand for the good article  
is daily increasing, and there is no reason  
why Saskatchewan should not enjoy a  
large proportion of the trade.

What has become of those thrifty  
hens, which in other years paid such close  
attention to their business that every  
breakfast table was adorned with eggs?  
We understand that Duck Lake settlers  
have noticed the change and are now  
shipping eggs to Prince Albert by ex-  
press, and find here a ready market.  
The hon. department of our industries  
should be looked after.

Now that spring is here we suggest to  
our town council the propriety of their  
offering a bonus for tree planting on the  
streets. This is being done successfully  
in other places and should be inaugurated  
here at once. Our townspeople are in  
the fortunate position of being able, at  
very little trouble, to secure an almost  
unlimited supply of soft maple, and we  
believe that if proper steps are taken by  
the council the public will freely respond  
and in a short time our streets will not  
only present an improved appearance but  
the sanitary condition of the town will  
be greatly improved.

SCHOOL BOARD.

An adjourned meeting of the School  
Board was held in the school on Tuesday  
evening last. Members present—Messrs.  
Johnson, Macarthur and Gunn.

A communication was received from  
Mr. Stull calling attention of Board to  
the fact that several articles were re-  
quired for use in the schools.

On motion of Messrs. Macarthur and  
Gunn, the secretary was instructed to  
procure what was required, including a  
clock and to have the different school  
rooms cleaned out when necessary.

Accounts were received from the  
Saskatchewan Printing and Publishing  
Co., advertising \$3.50, and the Mail  
Printing and Pub. Co., \$1.89.

On motion of Messrs. Gunn and Mac-  
arthur they were ordered to be paid.

On motion of Messrs. Gunn and Mac-  
arthur, Mr. Gunn's account was ordered  
to be paid, if found correct.

Twenty-six applications for the position  
of teacher in High School were received  
and after careful examination it was re-  
solved to accept the application of Mr.  
Jos. A. Snel, Kingston, Ont., and the  
secretary was instructed to wire him of  
his appointment.

The Board then adjourned until the  
next regular monthly meeting.

THE RIFLE.

On Wednesday last a general meeting  
of the Saskatchewan Provincial Rifle  
Association was held in the Council  
Chamber to consider and adopt a consti-  
tution and code of by-laws. The Associa-  
tion intend entering a team in the league  
shooting matches, for which practice will  
begin on the Police range as soon as the  
snow goes off sufficiently and the butts  
can be fixed up. The first and second  
league matches are shot off on the 17th  
and 24th of May. There are over fifty  
teams entered in the league.

Secretary Agnew gave notice of his  
intention to give a silver water pitcher  
to the marksman making the highest  
aggregate score at five regular practices  
during the summer. The winner to  
shoot in at least ten regular practices,  
and may shoot in as many as he wishes,  
when he has the privilege of counting  
his five highest scores.

DUCK LAKE.

Geese, ducks and prairie chickens are  
nearly more numerous here than they have  
been for years previous, and it is to be  
hoped that game guardians will be ap-  
pointed to protect them from the indi-  
vidual slaughter that has been carried  
on for years past.

Inspector Norman of your town arrived  
in town on Friday.

We have no objection to your people  
coming here, in fact we are always  
pleased to see them, but strongly object  
to them bringing your Arctic weather  
with them.

A horse belonging to S. Donaldson died  
here on Thursday evening. Mr. Ouel-  
lette had the team to come this far, and  
when at Cameron's one of the animals  
took sick. Everything possible was done  
to save it.

Notices are up for the election of trust-  
ees for the Protestant school to take  
place on the 1st of May.

Madigan's outfit expect to move to  
Saskatoon to-morrow (Saturday) and will  
commence grading at once.

We regret to announce the death of  
Mrs. Laframboise on Wednesday morn-  
ing of bronchitis. The deceased took  
sick on Monday. Her husband was killed  
at the memorable Duck Lake fight in  
1885.

Mr. W. Lytle has been given the con-  
tract to put up a new bridge at McFar-  
lane's Creek. Bill is the right man and  
will make a good job.

Registered at the Duck Lake House  
are Inspector Norman, Const. Gingras,  
R. Ouellette, G. C. Macleod, D. Shannon,  
Prince Albert; N. E. Brooks, of the Q.  
& N. W. Railway; J. Finlayson, Snake  
Plains; and Mr. and Mrs. W. C. Robin-  
son.

Seeding commenced in this district on  
Monday last.

Distant Thunder.

The farmers of this country do not pos-  
sess, at least they do not use, the power  
that properly belongs to them. They,  
beyond any other class, should have an  
influence in making and administering  
the laws and shaping the destinies of  
Canada. Their numbers, their intelli-  
gence, their conscience, their conserva-  
tive power, all entitle them to a con-

manding influence in both national and  
state affairs.

What they have lacked, and lack now,  
are first, proper organization; and second,  
a determination to use their own dor-  
mant power.

The indications are that Samson is  
growing restive in his bonds; that he is  
turning himself about in preparation for  
some move that will startle the lookers  
on, and waken the people to a true know-  
ledge of the situation.

Heretofore there have been patrons of  
husbandry, farmers' alliances, farmers'  
wheels, farmers' clubs and other combi-  
nations, all useful in their way, all suc-  
cessful in the work they undertake to do,  
and some, at least, likely to be perma-  
nent in character; but there has been no  
organization intended above all else to  
advance the political welfare of the farm-  
ing class and to force a recognition of its  
true position in the affairs of the nation.  
There has been a widespread feeling that  
there ought to be such an organization,  
but never until now has the time seemed  
ripe for it to come into existence. Any  
one with a quick ear may detect the  
sound of distant thunder, and the signs  
are that the whole heavens will soon be  
overcast—not as a portent of evil, but of  
good for our common country. Not very  
much longer will the hardworking farm-  
er be crowded out of his appropriate seat  
at the first table.—*Farm Journal.*

The animal became detached from the rig and Mrs. Bain, who was driving, held on to the reins and was drawn out over the dashboard and severely bruised up, but we are pleased to say there is no serious injury done. Mrs. Norman fortunately kept a firm hold of the seat and was not thrown out. Mrs. Bain is expected to be around in a few days.

## ST. CATHARINES.

On Thursday last Messrs. Plaxton and Betts, M.L.A.'s for Prince Albert, met with the electors of St. Catharines district in the school house. There was a large attendance and Mr. T. A. Reunie was called to the chair.

Having offered a few very apposite remarks with reference to the propriety of members giving an occasional account of their stewardship, called upon Mr. Plaxton, who addressed the meeting on various topics which had engaged the attention of the Legislative Assembly during the last two sessions. From what had transpired before the meeting commenced he found the Poisons Ordinance, as amended last session, was not approved by a number of the settlers, especially sheep owners; and certain clauses of the School Ordinance, to which, he might say, his attention had already been directed, were not considered quite satisfactory. These matters would, no doubt, be looked into carefully next session. Coming to purely local matters, he mentioned that, with regard to roads and bridges, Mr. Betts and himself had agreed to divide the district between them, Mr. Betts taking supervision of the roads west and the speaker those east of the town. Mr. Plaxton's speech was well received by the audience.

Mr. Betts, who met with a cordial reception, next addressed the meeting at some length, giving a further resume of the Assembly's work and explaining more particularly the past and present position of the Advisory Council and origin and causes of the trouble that had arisen in connection therewith. Speaking of the future, he made passing allusion to those questions, the final adjustment of which would be postponed till next local election. He was opposed to the immediate granting of full responsible government to the Northwest Territories as being premature and uncalled for, and when such a momentous case did take place, he had no desire to see the whole formed into a single province with Regina the capital. He was in favor of offering every encouragement to immigration and the immediate opening of the Hudson's Bay route with direct connection into the Saskatchewan Valley and the Territories generally.

Both members having expressed themselves willing to answer any questions, a friendly conversation ensued, in which a number of the electors took part. Capt. Craig then moved a vote of thanks to the members for their past services and, in doing so referred to the several Ordinances the electors would like to see amended. These however were not of great moment compared with the immigration question and the opening of the Hudson's Bay route, which were topics of paramount importance at the present juncture. He hoped the Assembly would continue to devote their utmost care to these subjects, never ceasing till satisfactory practical results were attained in both directions. The motion was seconded

by Mr. James Isbister in a few well-chosen sentences and, on being put to the meeting, was carried unanimously with applause. A committee of five was then appointed to prepare a report on the state of the roads and bridges in the district and confer with Mr. Betts on the subject. A hearty vote of thanks was accorded to the chairman on the motion of Mr. Betts seconded by Mr. Plaxton and a very pleasant meeting was brought to a close.
